In Ezra's first book, he learned about baseball, girls, cars, drinking, and a lot of hard physical labor, not necessarily in that order. America had not yet been pulled into the war in Europe, and we didn't yet know much about that strange little country across the Pacific, known as Japan. As we pick up the story in book two, Ezra is now in his early 20's, working hard for meager pay, and a long way from his family in Illinois and Indiana. He has been to a handful of states, now he thinks he would like to see the world. He enlists in the military and asks to go to the Philippines. He talks about baseball, girls, cars, and drinking, not necessarily in that order. He gets married on Independence Day, and soon after, his country also goes to war. He was on a troopship heading for the Philippines when news came over the radio about Pearl Harbor. It said, "This is not one of those Orson Wells stories like we had on Halloween a couple years before." It said, "This is the real thing." The ship was ordered back to San Francisco. He eventually does get his wish, to go to the Philippines. Come with Ezra as he becomes the wanderer, the man with Government Issue Gypsy blood. With more than 165 pictures, some in color. THIS VERSION OF THE BOOK IS BLACK AND WHITE

There is something solid and lasting about a printed word. It doesn't float away like the spoken word. So many modifying adjectives and adverbs, and polarizing interchanges among talking heads, are often useless, even detrimental, to reporting the news. They create emotions and opinions, robbing the listener of independent thought. There have been many changes in media in recent years. According to the Bureau of Labor Statistics, all newspaper publishers employed 455,000 reporters, salespeople, editors, and the like in 1990. By January, 2017 that workforce had been more than halved, and the slide continues.
