Ecological Psychology in Context : James Gibson, Roger ...

Ecological psychology is the scientific study of perception-action from a non-functionalism approach. Ecological psychology is a school of psychology, which follows much of the writings of Roger Barker and James J. Gibson. Those in the field of Ecological Psychology reject the mainstream explanations of perception laid out by cognitive psychology. The ecological psychology can be broken into a few sub categories, perception, action, and dynamical systems. As a clarification, many in this field w

Ecological Psychology in Context eBook by Harry Heft ...

Ecological psychology is a term that has been applied by three different psychologists to their distinct, independent theoretical approaches and associated research programs: the perceptual psychologist James J. Gibson (1903–1979), the child/social psychologist Roger G. Barker (1903–1990), and the child psychologist, Urie Bronfenbrenner (1917–2005). Roughly contemporaries, all three developed their individual approaches over the second half of the twentieth century.
