### Onan 4000 Generator

**Oil Type** The type of oil you should use depends a lot on the outside

temperature in the area you are running it in.

For those areas that are 32 degrees F and higher, you can get away with

using a 30W oil. For lower temperatures, you can drop to a 15W40, a 10W30 or 10W40 and for extremely low

Bookmark File
