A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That’s what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That’s where Will’s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother’s gun. He gets on the elevator, seventh floor, stoked. He knows who he’s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that’s when Will sees that one bullet is missing. And the only one who could have fired Shawn’s gun was Shawn. Huh. Will didn’t know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck’s in the elevator? Just as Will’s trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck’s cigarette. Will doesn’t know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

An essential guide to understanding the dynamics of a startup's board of directors Let's face it, as founders and entrepreneurs, you have a lot on your plate—getting to your minimum viable product, developing customer interaction, hiring team members, and managing the accounts/books. Sooner or later, you have a board of directors, three to five (or even seven) Type A personalities who seek your attention and at times will tell you what to do. While you might be hesitant to form a board, establishing an objective outside group is essential for startups, especially to keep you on track, call you out when you flail, and in some cases, save you from yourself. In Startup Boards, Brad Feld—a Boulder, Colorado-based entrepreneur turned-venture capitalist—shares his experience in this area by talking about the importance of having the right board members on your team and how to manage them well. Along the way, he shares valuable insights on various aspects of the board, including how they can support you, help you understand your startup's milestones and get to them faster, and hold you accountable. Details the process of choosing board members, including interviewing many people, checking references, and remembering that there should be no fear in rejecting a wrong fit Explores the importance of running great meetings, mixing social time with business time, and much more Recommends being a board member yourself at some other organization so you see the other side of the equation Engaging and informative, Startup Boards is a practical guide to one of the most important pieces of the startup puzzle.

A Wall Street Journal Bestseller! What are venture capitalists saying about your startup behind closed doors? And what can you do to influence that conversation? If Silicon Valley is the greatest wealth-generating machine in the world, Sand Hill Road is its humming engine. That's where you'll find the biggest names in venture capital, including famed VC firm Andreessen Horowitz, where lawyer-turned-entrepreneur-turned-VC Scott Kupor serves as managing partner. Whether you're trying to get a new company off the ground or scale an existing business to the next level, you need to understand how VCs think. In Secrets of Sand Hill Road, Kupor explains exactly how VCs decide where and how much to invest, and how entrepreneurs can get the best possible deal and make the most of their relationships with VCs. Kupor explains, for instance: • Why most VCs typically invest in only one startup in a given business category. • Why the skill you need most when raising venture capital is the ability to tell a compelling story. • How to handle a "down round," when startups have to raise funds at a lower valuation than in the previous round. • What to do when VCs get too entangled in the day-to-day operations of the business. • Why you need to build relationships with potential acquirers long before you decide to sell. Filled with Kupor's firsthand experiences, insider advice, and practical takeaways, Secrets of Sand Hill Road is the guide every entrepreneur needs to turn their startup into the next unicorn.

The book begins with an educational theory guide, to help deepen your understanding of why your horse is acting the way he does and what his motivating factors are. By using the exercises, programs and approaches you can create horses that are more self confident and able to be separated with more ease and relaxation. I am incredibly excited to get this information in the hands of horse lovers who struggle with this frustrating and destructive issue! "What are you, some kinda PSYCHO?" How many times have you said this to someone? Probably a lot. How often has someone said this to you? Hopefully, not so much! Truth is, we've all dated or been involved with someone who drove us nuts or, if we haven't, chances are that we were the ones who got on the other person's nerves. Now, the question is: who is the Psycho; you or the other person? Don't Date a Psycho: Don't Be One, Don't Date One looks at why we behave in the ways that we do in relationships, what makes us stay with the person we're with and what makes us leave them, and how to tell who is safe to be in a relationship with and who is unsafe. Done with humor and written from more than two decades of clinical experience as a psychologist, Dr. Keiron Brown helps us to gain a clearer understanding of who we are as individuals, who we are as partners in relationships and what makes each and every one us prone to acting a little nuts sometimes when our hearts are at stake.
