Online Library

Place Value

Students learn the place value of whole numbers and decimals.

Place Value Chart with Examples - Basic Mathematics
Students are asked to identify both the place value and the value of an underlined digit. For example if the 4 in

Online Library

Place Value

45,678 was 4 10,000 10
underlined, the
place value is
10,000 and the
value of the digit is
40,000. If students
need a little more
instruction to help
them learn place
value, the
identifying place
only worksheets
might help.
