The Polaris is a compact flash and ambient lightmeter that is exceptionally well made and versatile for its price. On powering up, there is a useful battery-check scale and automatic power shutdown after 5mins, while a memory feature retains all the settings when the meter is turned off or the battery changed.

**Six of the best lightmeters - Amateur Photographer**

Purchased Polaris light meter from Ebay in mint condition after recommendation from a local photography student who owned same unit. Had a chance to compare the Polaris light meter with a much more expensive meter "Gossen Luna Star F2 at over 400 bucks" Both funtioned with same accuracy. Probably one of the best values in photography.
