Conflict and Competition: Agon in Western Greece: Selected Essays from the 2019 Symposium on the Heritage of Western Greece. In 2004, the city of Athens hosted the Olympiakoi Agōnes, the Olympic Games. But the word 'games' almost trivializes the ancient concept of agōn, which transcends sport, drama, war, and even philosophical debate. The agōn deemed characteristic of ancient Greek culture has roots in the eris (strife) illustrated in Homer and Hesiod and debated in the metaphysics ...

Selected Essays on the Conflict of Laws. Author: Friedrich Juenger. Friedrich K. Juenger on the conflict of laws is always worth attending to. Rejecting the "conventional wisdom" that prevails in the field, he sees the conflict of laws not as a discipline devoid of substantive values but as a powerful catalyst for multistate justice.

This study of conflict management in the Middle East covers general conflict resolution in Islam, sociological roots of conflict resolution in the Arab World and conflict resolution and the Arab state. The Western perspectives presented are then critiqued from a non-Western standpoint.

"Most mainstream conflict resolution seems to look either at interpersonal conflict or international conflict without much focus on the widely differing individuals and social structures involved. This set of essays adds findings to those gaps in the literature. The authors and editors are mostly women and people of color, whose voices are often absent from such collections"--Provided by publisher.

These essays by one of the country's leading international lawyers represent his best and most interesting writing over a twenty-year period. The volume includes a report of the author's recent Hague Lectures entitled 'Provisional and Protective Measures in International Litigation', which constitute one third of the book and which will be compulsory reading for all international litigators.

'Kosmos' is the word the ancient Greeks used for human social order. It has therefore a special application to the Greeks' peculiar social and political unit of communal life that they called the 'polis'. Of the many hundreds of such units in classical Greece the best documented and the most complex was democratic Athens. The purpose of this collective 1998 volume is to re-evaluate the foundations of classical Athens' highly successful experiment in communal social existence. Topics addressed include religion and ritualization, political friendship and enmity, gender and sexuality, sports and litigation, and economic and symbolic exchange. The book aims to make a major contribution, theoretical as well as empirical, towards understanding how the social order of community life may be sustained and enhanced.

This volume brings together some of the most significant papers on international conflict mediation by Professor Jacob Bercovitch, one of the leading scholars in the field. It has become common practice to note that mediation has been, and remains, one of the most important structures of dealing with and resolving social conflicts. Irrespective of the level of political or social organization, of their location in time and space, and of the political sophistication of a society, mediation has always been there to help deal with conflicts. As a method of conflict management, the practice of settling disputes through intermediaries has had a rich history in all cultures, both Western and non-Western.

In some non-Western countries (especially in the Middle East and China) mediation has been the most important and enduring structure of conflict resolution. Jacob Bercovitch has been at the forefront of developments in international conflict mediation for more than 25 years, and is generally recognized as one of the most important scholars in the field. His theoretical and empirical analyses have come to define the parameters in the study of mediation. This volume will help scholars and practitioners trace the history of the field, its position today and its future and will be of much interest to all students of mediation, negotiation, conflict management, international security and international relations in general.
